## RETAIL IRIS LIST

**BLOOMING SIZE RHIZOMES.** Our roots are the largest that can be grown with the best of soils, plenty of fertilizer and good cultivation. **PEONIES** are strong 3 to 5 eye divisions. **POPPIES** are all field grown plants.

**POSTAGE OR EXPRESS** is prepaid on Retail Irises, Bargain list Irises, Peonies and Poppies providing shipment amounts to \$1.00 or more. If you divide your order to be sent at different times then shipments under \$1.00 will be sent Transportation collect. Wholesale Irises, Mixed Irises and Wire stakes are always sent Transportation collect.

**VISITORS** can place orders for Irises during blooming season providing order amounts to \$1.00 or more. A deposit of \$1.00 is required on orders of \$4.00 or less and 25% on orders of over \$4.00. Balance due when goods are called for.

**C. O. D.** Goods from Retail Iris list may be sent C. O. D. providing \$1.00 is sent on orders of \$4.00 or less and 25% on orders over \$4.00. No deviations from this rule.

**SECOND CHOICE.** Late in season it is very important that you make a second choice as we do not substitute unless requested to do so. All orders are filled in turn and subject to prior sale.

**CULTURAL DIRECTIONS.** Plant Irises any time from July 1st until ground freezes. Southern states from September 1st and later. Cover rhizomes slightly. Plant Peonies from September 1st to freezing time. Top eye should be 2 inches below ground level. Plant Poppies during August (if dormant) or later after Fall growth starts until freezing time. Crown should be 3 inches deep and roots straight down. All above should be mulched with straw first Winter.

**RATINGS.** These ratings have all been taken from the American Iris Society's Bulletins: 1922, 1927, 1932 and 1933. The score card is constantly becoming more rigid as the years advance. For this reason we are giving you the year that each rating was given. As an example of the different years' ratings: Lent A. Williamson in 1922 was 96, in 1927 was 88 and in 1932 was 75. Not all varieties will vary in the same ratio. We use the latest rating except that in 1932 a great many ratings were by one judge only in which case we give the 1927 rating given by five or more judges.

**EXPLANATION** of figures preceding Iris names. The first two are the ratings on basis of 100. The next two are the years in which the rating was given. The figures in parenthesis denote the number of judges giving the rating. Where the third pair of figures is blank it denotes that there were five or more judges. Where no rating is given the variety has not been rated.

**ABBREVIATIONS.** The Star (\*) indicates fragrance. T., Med. & Low, refer to height, meaning Tall, Medium and Low. E., MS., and L. refer to season of bloom; meaning, Early, Mid-season and Late

**TIME OF SHIPMENT.** Irises July 1st to Nov. 15th. Sept. Rhizomes are twice the size of July. Peonies from September 1st to November 15th. Poppies from August 1st to November 15th.

**HOW TO MAKE OUT YOUR ORDER.** Arrange the names in columns with price after same so you can add up same and see that total amount corresponds to your remittance.

Do not use the ratings or color descriptions on your orders. If you want prompt service arrange **ALPHABETICALLY** and do not mix Iris from wholesale list in with the Retail Order. Use a separate sheet of paper. It need not be one of our order blanks. Any paper will do. Poppies and Peonies should also be on separate orders from Iris as they are sent later.

**WE HAVE BEEN SELLING** for several years now Peony plants three and more years old with soil attached. Our soil has enough clay in it that at proper time we can dig Peonies with a clump of soil about the size of a bushel basket. We deliver to Toledo homes in this manner and if soil is kept in tact until planted your Peony will bloom following year same as in our fields saving you 3 years time. If you will visit our place during blooming time you can select the identical plants you wish and we will save them for you. Each three year old plant makes 3 to 5 divisions as regularly sold. **PRICE** of clumps with soil is four times the price of single divisions plus \$1.00 extra for digging and delivery.
